IMPORTANT!!

Please note the following Colorado Choice Provider Network Changes for Northern Colorado effective January 1, 2016 for the following counties:

Larimer, Weld, Morgan, Logan, Sedgwick, Phillips, Washington and Yuma

Members will see a change in the available facilities. The University of Colorado Health at Poudre Valley and Medical Center of the Rockies **will no longer be considered in-network facilities**. This change will include the employed providers of those facilities as well.

The Banner Health facilities, including McKee Medical Center in Loveland, Northern Colorado Medical Center in Greeley and the new Banner Fort Collins Medical Center will continue to be in-network to serve our members seeking services in Fort Collins, Loveland and Greeley. The rest of our network of facilities, both in the rural communities and in the Denver metro area, remains unchanged.

If a provider has admitting rights and privileges at our many in-network ambulatory surgery centers and outpatient facilities, or is able to utilize other in-network facilities they remain in our network. Providers who admit only to Poudre Valley Hospital or Medical Center of the Rockies may continue with our network but will need to refer their patients to our in-network facilities.

It is important for you to be aware of this change in our network for 2016 as you make critical coverage decisions for you and your family during the open enrollment period.

Our strong relationship with Banner, along with our committed relationship to the rural hospitals in the Northeast, enable us to continue to offer competitive, quality choices for our members and employers in Northern Colorado. While nearly every carrier has been limiting provider networks within much of Colorado, we are pleased to still be able to offer our members a broad network of providers. While the decision to no longer include Poudre Valley and Medical Center of the Rockies was a difficult one we felt it was in the best interests of our current and future membership in the northern part of Colorado.

Thank You,

Paul Roberts
Vice President of Sales/Marketing
