Colorado Choice Health Plans Provider Directory Information

Colorado Choice Health Plans (CO Choice) maintains a network of Providers and facilities sufficient to assure that all covered benefits are available to Members without unreasonable delay as is possible given the rural nature of much of the service area. Our contracting strategy is broad-based and personalized at the same time. We also work with employers and brokers to identify and address individual needs in underserved areas.

CO Choice employs a number of means to ensure network adequacy to meet the needs of CO Choice Members. CO Choice uses reasonable criteria including, but not limited to:

- Ratio of Primary Care Providers (PCPs) to Members;
- Ratio of Key Specialty Providers (KSPs) to Members;
- Geographic accessibility including proximity of acute care hospitals;
- Waiting times for appointments;
- Hours of operation; and
- Volume of technological and specialty services available to serve the needs of Members.

You may see any contracted doctor without getting a referral or preauthorization for an in-network consult only. **Many procedures, services and any in-patient admissions do require preauthorization.**
